

Paweł Stolarczyk – composer/music producer

Music Consultancy

Analysis and consultancy at the preproduction stage in order to represent the creative idea in the sound layer. This results in constructing a sound map of final compositions based on several parameters. The map defines the entire music image of the visual work in its contexts: stylistic, aesthetic, historical, genre.

Researching

Creating original drafts and researching for music references, in order to fit the music with the creative concept and the visual project.

Brand music design

Analysis and creation of brands' sound logotypes - considering the cultural aspects, brand tradition and previous marketing communication and most importantly the strategic assumptions: brand image, target group, USP etc..

Music composition

Multidimensional composition and digital music production for feature films, commercials and TV shows. Preparation of digital mock'ups, for the preproduction purposes, consultancy and soundtrack composition, editing and mastering, soundtrack composition and consultancy, editing and mastering at the postproduction stage.

Sound design and foley

Creating film's original sound design; foley (synchronous and asynchronous)

Digital sound editing

Soundtrack edition at the preproduction stage (trailers, animatix, pitchings, tender versions).

Digital music production

Digital broadcast music production with the use of world class instrument samples: acoustical, electro-acoustical and electronic. Online mixing and mastering in the cooperation with the world's leading sound studio (Abbey Road Studios).

Music session production

Complex production of recording sessions (from solo instrumental recording to full orchestra). Arrangement, orchestration and preparation of music scores for any instrumental ensemble..

Production supervision

Soundtrack supervision at the postproduction stage and acoustical verification of soundtrack's quality, including the assumed aesthetical features (voice-over, mixing and editing, final dubbing and broadcast).

Sound sculptures

Creating ambient and environment sound works using the urban and visual city space.
